CRRA membership entitles you to join up to 3 Technical Councils.

Indicate your selection below:

- California Collegiate Recycling Council ***
Provides technical assistance and networking for college and university recycling programs.
- California Organic Recycling Council**
Monitors state and federal regulations, organics market expansion, public information and related organic issues.
- Construction and Demolition Council***
Promotes the advancement and enhancement of C&D waste material recovery practices, and strives to expand C&D recovery infrastructure and markets.
- e-Waste Handlers***
Advocates the setting up of environmentally safe procedures for the collecting and safe handling of e- Waste. e-WH helps local generators and recyclers, develop methods of educating the public about proper e-Waste disposal, and provides a suitable marketplace to encourage Reuse, Rebuild and then Recycle.
- Global Recycling Council***
Supports zero waste policies, removal of subsidies for virgin materials and job expansion through discards and recycling programs.
- Household Hazardous Waste Council**
provide a forum for discussion and promotion of product responsibility models for managing universal and hazardous wastes.
- Independent Recyclers Council***
Provides information specific to private recycling collection and processing.
- K-12 Technical Council***
To cultivate waste reduction behavior and environmental literacy in K-12 schools, using best practices in operations.
- Local Agency Technical Council***
Addresses refuse and recycling concerns of public agencies.
- Recyclers Global Warming Council***
represents interests within CRRA to address the issue of greenhouse gases.
- Repair, Resale and Reuse Council***
Promotes use of thrift stores, public awareness of repair, resale and reuse of products.
- Venue & Special Events Waste Reduction Council***
provide a forum for discussion and promotion of waste diversion programs, cooperative purchasing of recycled content materials, public education, publicity, outreach, sustainable construction, waste reduction planning, and product responsibility.

*Technical Councils that have a listserv
