

**CCRC Arranges Tour of  
Southern California  
Material Recovery Facility:  
Taormina Industries**

The California Collegiate Recycling Council (CCRC) is holding its final recycling facility tour of 2005 in December. Our tour will take place on Wednesday, December 14, 2005, at Taormina Industries, a 3000 ton-per-day material recovery facility in Anaheim. The tour will begin at 10:00 am and attendees are invited to join afterwards for lunch to discuss recycling opportunities at colleges and universities.

Taormina Industries opened in 1984 and has evolved into a major processing facility that serves the industrial, commercial, and residential sectors in both Los Angeles and Orange counties.

The Taormina Industries tour is limited to 20 people, so please rsvp as soon as possible to Madeline Brodie at Santa Monica College ([BRODIE\\_MADELINE@smc.edu](mailto:BRODIE_MADELINE@smc.edu)) or Jon Root at CSULB ([jroot@csulb.edu](mailto:jroot@csulb.edu)).
