6. Conference & Workshop Topics - Assign Tasks:

There was some discussion of finding examples of cities that have green building requirements or recommendations - possibly City of San Jose, Orange County and City of Oakland to look at. There was a request to have new 2008 Building Energy Efficiency Standards that will go into effect August 1,2009 e-mailed to everyone. Look at C&D Ordinances in place as models to show what is working, how to include green building, deconstruction and reuse verbiage. There was an idea that we should connect to the RRR Council. How to connect in to global warming?

Theme Track Ideas:

Green Building & C&D Ordinances to Achieve Zero Waste

C&D Materials Recycling and Markets - what are the materials, what can be reused, where to assure recycling, cities that are successful in this process, etc.

New Green Building Guidelines for 2010 and the New 2008 Energy Code

Assign Tasks - Workshop steering Committee Members are Judy Ware, Wayne Williams and Olivia Sanchez

Panel Discussion - for those with successful C&D ordinances, to include haulers and a contractor?
